Is Offering a Breakthrough...

CAREER JUMPSTART

We all know that there's more to being a good fit for a job than just how smart you are and your personality type – and yet, that's the focus of almost all career advice.

What WE focus on is different:

This is not just another Career Assessment.

This year, Maria Forbes is offering the Kolbe OPgig Career Program - Data Driven Career Advice to help match graduates to the career they want.

What we will uncover with OPgig:

- We offer a radically improved assessment for identifying best fit careers
- Complete a job-related survey that assesses your conative strengths
- We will discover what career best fits YOU

Good through August 15, 2024

Zoom Meetup
